KNOX DIVIDE NOW SHIPPING ORE TO MILL

Company Cuts Immense Ledge
In Golden State Mine
at Klondike

Knox Divide has entered the shipping list with 10 tons a day going to the MacNamara mill from the Golden State mine at Klondike on which the Knox company has a bond and lease. The Golden State was operated by the Knox company during the past year with varying results and within the past month, an immense ledge carrying values of gold for a width of 10 feet was proved up to an extent that assures the Knox company a production of from 10 to 25 tons a day for an indefinite period.

The first shipment was made Saturday when the Sellstrom trucks hauled 10 tons of ore into the bins at the MacNamara. Over 200 tons are lying on the dump which will be shipped, while a shipping platform is being installed and improvements effected for more rapid handling of the ore. The big shaft line at a depth of 60 feet 13 feet out of the shaft and has been opened for a distance of 113 feet. The entire face breaks down in a high-grade shipping ore that nets the company a handsome profit after allowing for the long haul by truck from Klondike. After December 22 the Tonopah & Goldfield will make effective a rate of \$1.30 per ton on all ores from Klondike Wells to mine Tonopah or Millers. This will make a material saving to the Knox company, as the Golden State mine is situated three miles from the tracks with a down-hill grade the entire distance. The MacNamara has made a treatment change of \$5 per ton, but it is expected that the business will be divided with the Tonopah Mining company's mill at Millers, where experiments are being made in the laboratory with a view to cheapening the cost of extraction.

The Golden State group comprises four claims located by W. A. Nye and Harry McNamara, in which a number of other Tonopah business men are interested. Two years ago 25 carloads of \$20 ore were shipped to the smelters by the Golden Gate, but this would not be a profitable experiment at the present time for the reason that the railroad rates had been advanced and the smelter charges are much higher than they were at that time when silicium ore was in demand and strong inducements were offered by the treatment plants for ores carrying a heavy percentage of silica. Beginning this morning the Knox Divide increased its working force at the mine and will continue to add men as soon as facilities are developed for their accommodation. The first step outside the mine will be to move three cottages to the mine site where a regular camp will be opened. At present the crew lives in Tonopah and go to and from work by jitney service. With the men living at the mine more effective work will be done and greater efficiency attained. A compressor will also be installed and the mine put in shape for a sustained production that will contribute greatly to the prosperity of the Tonopah mills. This makes the Knox Divide the third shipper among the entire list of Divide producers and credit for the achievement is due to Charles E. Knox, president of the company, who secured the option on the Golden State for his stockholders instead of taking it up as an individual investment. The transaction was not consummated until late Saturday afternoon in the office of Hugh Henry Brown, when the last signature was attached to the bond and shipments began.

NO SURPRISE OVER ARGENTINE'S ACTION

(By Associated Press)
PARIS, Dec. 6.—When United States Senator Medill McCormick received word of the withdrawal of the Argentine delegation from the assembly of the league of nations he said to a representative of Excelsior: "That interests me very much but it does not surprise me at all."

ELKS' SERVICE IS IMPRESSIVE

The annual memorial services of the Tonopah lodge of Elks, held last evening at the lodge home, proved to be a most impressive ceremony. The ritual of the grade was used in the opening and closing ceremony and the principal address of the evening was delivered by H. K. Moore, past exalted ruler of Tacoma lodge.

Rev. H. L. Granger delivered the invocation and musical numbers were rendered by Ryder Ray, Mrs. Hal Leavitt, Mrs. Jesse Simmons, Mrs. J. P. Montague and Mrs. C. F. Larson. With Mrs. Roy McDonald at the piano and William F. Logan, violin. The lodge orchestra, composed of Ivan Blum, Herman Albert and William F. Logan, rendered several numbers, which were greatly enjoyed.

The attendance was the largest that ever turned out to similar exercises in this city.

HIGH GRADE ORE FROM ALTAMONT

An exceptionally fine sample of high-grade copper ore carrying values also in gold and silver was brought in this morning from the Altamont mining property at Lone Mountain by J. M. Stewart. The ore is on exhibition at R. Fred Brown's brokerage office and is attracting a great deal of attention today.

According to Mr. Stewart, the property has been working steadily for the past three months and the showings are satisfactory to the stockholders. No assays of the ore have been made, but the finding of pieces that will run \$100 per ton is of common occurrence.

The plans of the company call for the continued development of the property increasing the working force from time to time as it becomes necessary.

HARDING URGES FINANCE BILLS

(By Associated Press)
WASHINGTON, D. C., Dec. 6.—President-elect Harding said that he had asked senators at a conference today to proceed with all appropriation bills as rapidly as possible in order to get the necessary legislation out of the way and the doors cleared for the special session of congress. Harding said that he would resign from the senate between January 10 and 15 and that Frank B. Willis, of Ohio, who was elected as his successor, would be appointed to fill out the unexpired term.

5 ARRAIGNED ON SERIOUS CHARGE

(By Associated Press)
SAN FRANCISCO, Cal., Dec. 6.—The trial of the five men charged with a statutory offense against two young women here on November 24 was set by Superior Judge Ward today for December 15. All pleaded guilty when arraigned today.

One of the attorneys appointed to defend the men told the court that if his clients did not follow his advice he reserved the right to withdraw from the case. The men arraigned were Kravosky, Murphy, Brady, Carey and McKinnell.

LAST SESSION OF CONGRESS BEGINS TODAY

Appropriation Bills Expected
to Occupy Time Until
Fourth of March

(By Associated Press)
WASHINGTON, D. C., Dec. 6.—The third and final session of the sixty-sixth congress began with Senator Harding in his seat in the senate. The galleries began to fill early and were crowded when the session opened. Vice-President Marshall and Speaker Gillett fell. Harding was given a round of applause upon entering the senate chamber. A day of cooperation and friendly relations between the White House and congress was forecast by President-elect Harding in a short address from the floor of the senate. Through declaring any desire to criticize the present administration, Harding declared it to be one of his ambitions as chief executive to insure better team-work between the two branches of the government.

Harding spoke briefly, and the senate then adjourned without transacting any business to await the communication from President Wilson.

(By Associated Press)
WASHINGTON, D. C., Dec. 6.—Passage of the annual appropriation bills and preliminary work on matters to be pushed by the new administration were expected to occupy much of the time for the last session of the sixty-sixth congress which began today to continue until the inauguration of President-elect Harding on March 4.

Sessions today were limited to the usual formal ceremonies in the senate and house. Tomorrow the annual message from President Wilson will be received and congress then will get down to the real work of the session. Receipt from Secretary Houston of the annual federal appropriation estimates, aggregating several billions of dollars, was one of today's events.

Adjournment until tomorrow out of respect for house members who have died since the closing of the last session in June and to await the president's message, was arranged to follow today's routine. This included the chaplain's prayer; roll call of membership and adoption of resolutions to notify the president and each body of today's assembling. Senator Lodge of Massachusetts, the Republican leader, had charge of these resolutions in the senate, and Representative Mondell of Wyoming still on crutches from a recent accident, acted similarly in the house.

Other formalities on today's program were the swearing in of senators Carter Glass of Virginia, elected to fill the unexpired term of the late Senator Martin, and Senator J. Thomas Heflin, of Alabama, successor to the late Senator Bankhead. Several new house members elected to fill vacancies also were to be sworn in.

(Special to The Bonanza)

YERINELLI, of New York, All Lyons, recently pronounced here on mass meetings in the city respects to Congressmen who serve. There were also a number of speakers from neighboring counties and from the mother sections of the state.

H. M. Willis, president, speeches were made by Hon. Charles E. Knox, and Hugh Henry Brown, of Nevada, and Willis, of Ohio, who was elected as his successor, would be appointed to fill out the unexpired term.

Mr. Brown, after paying a handsome tribute to the (Republican) standard-bearer, discussed at some length the subject of Nevada industries and Federal Legislation. He pointed out the need of extending the protective principle to the leading industries of the state; declared that the preservation of the local structure of the nation's business imperatively demanded federal encouragement for the production of the precious metals and also pleaded for an extension of the government's reclamation policy. He said:

I hope to be long enough to see the day when mining no longer will be the government industry of Nevada, and that agriculture will become the industry of wealth and production. Not that mining may languish or contract in volume.

QUEENSTOWN CLERK ARRESTED BY ARMY

(By Associated Press)
LONDON, Dec. 6.—Soldiers raiding in Queenstown today arrested Hugh O'Reilly, town clerk, it being alleged that seditious documents had been found in his possession, says a dispatch to the Daily Mail.

GREEK PEOPLE FAVOR RETURN OF CONSTANTINE

Great Britain Threatens Withdrawal of Financial Support to Nation

(By Associated Press)
ATHENS, Dec. 6.—Returns from the plebiscite throughout Greece yesterday to decide whether the Greek people would recall former King Constantine to the throne show a majority in favor of Constantine resuming power. The plebiscite is considered farcical.

Great Britain will extend no further financial aid to Greece if Constantine returns to the throne, says a note which was presented to the Greek government by Earl Granville, British minister, Sunday. The French minister also presented a note demanding payment of outstanding loans.

(By Associated Press)
LUCERNE, Dec. 6.—Ex King Constantine today received the first direct returns from the plebiscite in Greece on the question of his return to the throne. These returns were from Corfu and announced that this island had recorded itself unanimously in favor of Constantine.

TARIFF ON CITRUS FRUITS PROPOSED

(By Associated Press)
WASHINGTON, D. C., Dec. 6.—Thirty duties on citrus fruits of 14 cents a pound are provided in a bill introduced by Representative Hamilton of California today. The rates are the same as those carried in the Payne Aldrich bill.

FRISCO DIVIDE STARTS WORK

Workmen have been busy for the past week arranging the housing accommodations of the Frisco Divide immigrants to the resumption of operations on the property. Drifting on the west at the bottom of the present shaft has been started and will be vigorously prosecuted. The policy of the company recently adopted, will be to prospect a contract which runs through its estate. This prospecting will be on the surface in an effort to find the most highly mineralized points on this contact where developments will be done.

From assays secured on this prospecting contact the management feels confident that an orebody will be opened up.

S. P. WILL CUT DOWN WORKERS

(By Associated Press)
SAN FRANCISCO, Cal., Dec. 6.—The Southern Pacific Railroad company has been compelled to lay off approximately 2000 men of the mechanical department in the past two months as a result of business adjustments and the progress of repair work left over from the war period. It was announced from the company's offices today.

(By Associated Press)

CHICAGO, Ill., Dec. 6.—Approximately 225 employees of the Southern Pacific shops here have been notified of a lay off effective Friday.

Orders from San Francisco at Sparks Nevada about 125 men are affected.

ELIMINATION OF ARTICLE TEN IS POSTPONED NOW

Argentina's Amendment Which
Caused Withdrawal to Be
Debated in Future

(By Associated Press)
GENEVA, Dec. 6.—Consideration of the amendment in the league of nations covenant which would eliminate Article 10 has been postponed by the assembly of the league until its next meeting. An amendment proposed by a member of the Canadian delegation has been referred to a committee and instructed to report at the next session.

Argentina's amendment to the covenant of the league of nations, the rejection of which caused the delegation from that country to leave the assembly Saturday, has been referred to the assembly for reconsideration at its next meeting. Hon. Carlos Pavlovich, head of the Argentine delegation, told the Associated Press the delegation would leave for Paris Wednesday or Thursday.

ALL IMMIGRATION MAY BE CUT OFF

(By Associated Press)
WASHINGTON, D. C., Dec. 6.—A favorable report on the Johnson bill prohibiting immigration to the United States for two years was ordered today by the house immigration committee. Chairman Johnson of the committee said the bill will be given preference in the house.

POPE HONORS L. A. RECTOR

(By Associated Press)
ROME, Italy, Dec. 6.—The pope has appointed Rev. Thomas Fitzgerald of Los Angeles as apostolic protonotary.

Rev. Thomas Fitzgerald, who has been honored by the pope, is rector of the Church of the Sacred Heart at Redlands, California, his parish being a part of the diocese of Los Angeles and Monterey.
